# Simplicity and efficiency, seeking out every opportunity to automate

Wednesday 03:26 pm

Abhijit Jadhav

Recognised for "Simplicity and efficiency, seeking out every opportunity to automate"

Recognising Abhijit's efforts for analysing and suggesting improvements on the Notification v2 code. This demonstrates Excellence to go into a new component and understand the complex code base and suggest improvements, and good understanding of Java and the AWS SDK. The suggestions from Abhijit are welcome after recently the v2 VPT enhancements but there are still improvements to be made in the code to improve efficiency, which Abhijit has identified.
