Recognised for "World-class service for customers and clients, every time"

Thank you Abhijit!!

Your exceptional support for AWS ECS and Authorizer lambda for our UKC Account Swap Project was really impactful for us to deliver this project in such a short span of time. We as team can't thank you enough for stepping in to help us out whenever we needed at odd times especially for lambda authorizer. We were not in best of shape for this project as ECS was something we were exploring out for the very first time and from project timeline both, but your support ensured our to crack the issues within time and deliver the project .

Its good to have someone like you around and once again , thank you for all your assistance.
